The Israeli Society for HealthTech

- Founded under the auspices of the Israeli Medical Association (IMA) – 2020
- Aims to create dialogue between clinical medicine and the world of HealthTech, increasing the involvement of physicians in this field.

Skills, Language, Understanding

Physicians Involvement

The Israeli Society for HealthTech
What are we doing?

- A fellowship program
  - For specialist physicians to be trained in HealthTech: one year (50%), including 2 rotations (each 5 months) in HealthTech companies

- Conferences allowing networking, and sharing knowledge

- Advancing strategies for managing medical innovation in public health organizations

- Establishing international networking to expand opportunities for Israeli physicians in the tech world
